## What is Rockhounding?

Rockhounding is the hobby of collecting rocks and minerals. Rockhounds can be found all over the world, searching for everything from common rocks to rare and valuable gemstones. Rockhounding is a great way to learn about geology, get outdoors, and find beautiful and interesting specimens.

## How to Rockhound

Rockhounding is a relatively simple hobby to get started with. All you need is a few basic tools, such as a hammer, chisel, and magnifying glass. You can also find rockhounding clubs in most areas, which can provide you with information and support.

Once you have your tools, you can start exploring for rocks and minerals. Look for areas where rocks are exposed, such as road cuts, riverbanks, and cliffs. Use your hammer and chisel to break open rocks and look for crystals, fossils, and other interesting specimens.

## **The Best Rockhounding Sites in the Region**

This guidebook includes detailed descriptions of 100 of the best rockhounding sites in the region. Each site is described in detail, with information on the types of rocks and minerals that can be found there, as well as directions, maps, and photos.
