In 1791, a massive slave rebellion erupted in the French colony of Saint-Domingue. Led by Toussaint L'Ouverture, a former slave, the Haitian Revolutionaries fought a bloody and protracted war against the French colonialists. Against all odds, they emerged victorious, establishing the first independent black republic in the Americas.

Revolution in Our Time is the definitive account of this extraordinary event. Drawing on a wealth of primary sources, Laurent Dubois paints a vivid and immersive portrait of the Haitian Revolution. He tells the story of the slaves who rose up against their oppressors, the white planters who fought to maintain their power, and the French soldiers who were sent to quell the rebellion.

Dubois's narrative is both sweeping and intimate. He captures the grandeur of the Haitian Revolution, but he also gives voice to the individual experiences of those who lived through it. We meet slaves who risked their lives to fight for freedom, planters who clung desperately to their wealth

and privilege, and soldiers who found themselves caught in a bloody conflict that they did not fully understand.

Revolution in Our Time is a groundbreaking work of scholarship that sheds new light on one of the most important events in world history. It is a must-read for anyone interested in the history of slavery, revolution, and the Caribbean.
