- **Elizabeth Blackwell**, the first woman to graduate from medical school in the United States
- **William Morton**, the first person to use anesthesia in surgery
- **Joseph Lister**, the father of antiseptic surgery
- **Clara Barton**, the founder of the American Red Cross

- **Walter Reed**, the discoverer of the cause of yellow fever
- **Charles Mayo**, one of the founders of the Mayo Clinic
- **Helen Taussig**, the pioneer of pediatric cardiology
- **Francis Crick**, the co-discoverer of the structure of DNA
- **Jonas Salk**, the developer of the polio vaccine
- **Elizabeth Kübler-Ross**, the pioneer of the hospice movement

These individuals came from different backgrounds and had different motivations, but they all shared a common goal: to improve the health and well-being of others. Their stories are inspiring and remind us of the power of one person to make a difference.

Ten Men And Women Who Reinvented American Medicine is a valuable resource for anyone interested in the history of medicine or the lives of these remarkable individuals. The book is well-written and engaging, and it provides a fascinating look at the evolution of medicine in the United States.
