

Women in Science and Technology: Inspiring Stories of Success

This book tells the stories of women who have made significant contributions to science and technology, from the early pioneers to the present day. These women have overcome obstacles, broken down barriers, and achieved great things in a field that has traditionally been dominated by men.

Women in Science and Technology: Annie Easley—The Story of a NASA Computer Scientist, Grades 1-3 Interactive Book With Illustrations, Vocabulary, Extension Activities (24 pgs) by Margarita Engle

Their stories are an inspiration to us all, and they show us that anything is possible if we set our minds to it. In this book, you will learn about:

- Ada Lovelace, the world's first computer programmer
- Marie Curie, the first woman to win a Nobel Prize
- Rosalind Franklin, the scientist who discovered the structure of DNA

- Grace Hopper, the inventor of the first compiler for a computer programming language
- Sally Ride, the first American woman to travel to space

These are just a few of the many women who have made a difference in the world of science and technology. Their stories are an inspiration to us all, and they show us that anything is possible if we set our minds to it.
